25X1 6. [] Miss Martin, in the office of Senator
George A. Smathers, called to say that the Senator has received a number of
letters from constituents who have expressed concern about the reports
that there were Soviet missile bases in Cuba. She said she has contacted
State Department on this and State indicated they have no information to
this effect. She wished to include in the Senator's letters a statement to
the effect that he has been in touch with State and CIA and neither State nor
25X1 the Agency can confirm such reports. []

[]
Miss Martin thanked me for this assistance.

25X1
